G3 OIL/GREASE PUMP

G3 ELECTRIC PUMP

With its flexible design, including adjustable pump elements and ability to work with both injector-based and series progressive systems, G3 is a rugged, cost-effective pump designed to serve multiple markets and applications. The new pump features 3 control choices, which means added flexibility for easy lube system setup, operation and troubleshooting. The pump extends machinery life, reduces operating costs and increases productivity for usage in a wide variety of markets, including in-plant manufacturing, mobile on-road and off-road, and wind turbines.

Specifications

G3S

G3P

G3M

Lubricant	Oil or grease, max. NLGI 2
Maximal working pressure	350 bar
Power	12 or 24 VDC 90-240 VAC
Number of pump elements	1 to 3
- type of element	adjustable output
- max. flow / element	2, 3 or 4 cc/min.
Reservoir sizes	2,4,8,12 or 16 liter
Operating temperature	-25° to 70°C
Protection degree	IP69K
